Team IMS at your Service

“Obtain and Maintain Loyalty.”

Welcome to our third Annual News Letter!

International Metal Source is proud of the continuous growth with our Clients and Providers. As a result, we'd like to thank you for your support and give you an update on our current news, upcoming events, recent achievements, and steadfast objectives.

Did you know that International Metal Source can also provide our customers with additional services?

International Metal Source has partnered with several modern, state-of-the-art machine shops capable of providing quality parts for industries such as Aerospace, Oil & Gas, Medical and Electronics.

Processes include: CNC Milling, CNC Turning (Lathe), Rapid Prototyping, Laser Cutting, Waterjet Cutting, Plasma Cutting, Punching and Bending. Whether your design is a simple or complex part, requires a prototype, or needs a full production run, International Metal Source is eager to help you meet your objectives.

Team IMS pleasantly introduces the new members of our family.

2015-2016 Forecast

“Thinking of a Master Plan”

Long Term Agreement Contracts with Additional Services

International Metal Source is here for our customers by offering Long Term Agreements, locking in lower pricing and having materials on our floor available for immediate delivery. This also takes the worry out of not being able to locate urgently needed material you require when meeting important contract delivery commitments.

We can save you money and stress by provide you with fully traceable quality material on time, every time.

Contact our staff today.

One-Stop Shop Software

Our programmers are working on developing software to make your job easier. Each quarter, you will receive an inventory report projecting the metals that your company will need soon based on past sales. By doing so, we will help you stay ahead of the curve and lock in lower prices based on these trends.

Edward Vieyra, Accounts and Logistics Manager

Eddy has over three years of experience working with the Aerospace and Defense industry. He has worked in Logistics and as a team leader determining the disposition of raw material metals and composites. He also has experience working with silicon tubing extrusion and milling for the medical manufacturing industry. He is certified in PMT51 composites and is an expert in operating heavy vehicles such as dock cranes and large forklifts. Eddy's goal is to assure that he meets all his customer's material requirements and deliver on time, every time.

Ofelia Velez, Sales and Contracts Manager

Ofelia has over 10 years of experience working in the Aerospace and Defense industry as Inside Sales and Operations Manager. She has worked as a specialist in manufacturing, in calibration and reconditioning of precision thread gauges, and with clients to meet their high standards and exacting tolerance requirements. Ofelia's goal is to provide the best possible service and products to all her customers while maintaining the best pricing in the industry.

International Metal Source is a proud member of the following:

The National Association of Professional Women (NAPW)

The Aerospace & Defense Association

Institute for Supply Management (ISM)

Stand by for this exciting project!

2015-2016 Awards & Certificates /

Upcoming Events & Meets

We are visiting The Whitehouse

We are proud to announce that our CEO/President Jaymee Del Rosario has been invited to attend the 2015 Small Business Leadership Summit from May 11-13, 2015 in Washington, DC.

The invitation to this important summit meeting states that Jaymee was "handpicked" as an invitee because she is "one of our nation's brightest and innovative small business owners."

At the summit, she will have the unique opportunity to "play a role in shaping national policy" by participating in sessions with members of the Administration and Congress to outline policy concerns for 2015 and beyond.

Be sure to read her full report in the next

International Metal Source newsletter!

International Metal Source will be hosting another 'Fun-D Aero' networking event this year with our partnered sponsors. Fun-D Aero is an annual mixer that will help fund for Colleges in Engineering Technology & Design, Charities, Scholarships and New Ideas in Development.

Now, stay tune for this upcoming festivity.

Confidence of Excellence

JPL/NASA 19TH Annual Science Forum and Supplier Fair

Sohil Mody, VP of Operation and Edward Vieyra, Account/Logistic Manager had a successful show at the JPL Science Forum and Supplier Fair on May 5th, 2015.

We were able to debut our capabilities and crafts that has a significant value to the Space Industry's research and development.

We look forward to being a part of their next annual event. See you there!

“International Metal Source strives to be the primary source of all metal products through customer loyalty, integrity, quality excellence, and continuous improvement while establishing sustainable growth with domestic and international clients.”

Since August 2009, we have established a loyal customer base, and we will continue to meet demands by serving high and low quantity orders with honesty, precision, and speed. As a minority and woman-owned business, our small corporation provides your order with the personal touch it deserves. Thank you all for your continuous support through the years. We appreciate all of you.

Gratitude and Recognition, Thank you!
